REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or fairly teach a membrane covering all of the one or more of the at least two apertures that define each of the at least one localized fluid-pressure platen zones, the membrane being configured with a first section sealed to the structure around the all of the one or more of the at least two apertures defining the at least one localized fluid-pressure platen zone so that in response to fluid of the respective at least one localized fluid- pressure platen zone, the sealed membrane is extendable into the fluid-bearing fluid of the at least one fluid-bearing platen zone; the membrane being is configured with a second section surrounded by the first section, and the extendable configuration of the membrane comprises the second section having a flexible characteristic for movement relative to the respective one or more of the at least two apertures in response to the fluid of the respective at least one localized fluid-pressure platen zone, the movement of the second section extends the second section into the flow of the fluid-bearing fluid. The closest art, to Boyd et al, '024, does not disclose that the membrane is configured with a first section sealed to the structure around all of the one or more of the at least two apertures, or with a second section surrounded by the first section. '024 discloses a membrane that is separate from, not sealed or attached to, the surface that forms the apertures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
